**County**

LaSalle

**Region/State**

Region 3

**Which of the following best describes current conditions in this county?**

Near Normal

**Quick synopsis of conditions that will appear in the main feed**

We have had intermittent showers over the past week, so there has been a lot of opportunity for farmers to finish planting. The vast majority of fields in LaSalle County have been planted and have seedling emergence. Corn is ranging in development from VE to V4. Soybeans are ranging from VE to V1.
