Region 3

Which of the following best describes current conditions in this county?

Severely Wet (ground is saturated, standing water is abundant, flooding may be present)

If conditions are on the dry end, which of the following US Drought Monitor categories best fit current conditions. To better judge the fit, see explanation of USDM categories here:

<https://droughtmonitor.unl.edu/About/AbouttheData/DroughtClassification.aspx>

Near Normal (Dnada)

Quick synopsis of conditions that will appear in the main feed

Sprayers are out! The next few days will be great drying weather and I've heard Wednesday is the Go day for many farmers in McLean County.
